3E Company provides full lifecycle and supply chain solutions for EH&S data management, providing a single, integrated solution for managing EH&S capabilities, resulting in reduced cost, risk and liability. Its solution sets include web-based and integrated global regulatory data; MSDS authoring, distribution and management, transportation; emergency response; regulatory reporting and waste management services.

The AIHA Registry Programs assures a level of quality among professionals, by validating an individual's knowledge and abilities in an area of specialty in industrial hygiene or related environmental health and safety practice. Our registrants are qualified individuals who continually demonstrate their competency in their specialty area of practice. The AIHA Registry Programs provide confidence to regulators and consumers who are looking to identify and properly control or remove potential health hazards to workers and occupants of buildings.

CLP/GHS Label Implementation Specialists. Print-on-Demand GHS labeling solutions, including color laser printing our Poly-Twin® drum labels with GHS pictograms that meet IMDG and DOT requirements. At Brandywine Drumlabels our sole focus is cost-effective labeling for chemical packaging.

Hazard Communication, REACH compliance, TSCA program management, Product Stewardship Implementation, litigation support and Industrial Hygiene program management.

Enhesa is the leading environmental, health and safety consulting firm, providing EHS regulatory compliance assurance support to businesses worldwide. Over the past 20 years, Enhesa has built a knowledgebase of EHS regulations which includes the "What" of business requirements, the "How" to develop cost-effective solutions, and the "When" of enforcement activities in over 150 countries and jurisdictions. We combine our unique knowledgebase with an in-house team of 70 dedicated experts from more than 40 different countries and a network of more than 300 local experts and consultants. No other company or institution has anything remotely similar. Enhesa provides regulatory data in 48 languages and provides analysis and reports in 26 languages. Our range of EHS compliance assurance services includes Audit Protocols/ScoreCards, Auditing Assistance, Monitoring of EHS emerging regulatory developments for operations and products, EHS permitting services, product regulatory checklists, and consulting on specific EHS issues of interest or concern to a company. All of Enhesa's services are complimentary and designed to work independently or as part of coordinated and comprehensive EHS management system. Over 7,000 EHS managers rely on Enhesa to keep their companies compliant globally.
