Does your hazard communication labeling program meets all current regulatory requirements? Get a FREE labeling evaluation to identify potential issues and lower labeling costs - printers, label media and labeling software. A complimentary assessment of your labeling processes will identify any areas of non-compliance, improve your hazard communication, and lower labeling costs. Color inkjet, color laser, auto-application, Prop 65, hot fills and other operational challenges - let's talk.

**\*\*\* PLATINUM SPONSOR \*\*\***

With over 50 years of experience, CHEMTREC's world-leading call center operates on a 24-hour basis, seven days a week, providing emergency response information wherever hazardous materials are manufactured, stored, transported, or used. With the right procedures and protocols in place, and by doing what's right quickly and effectively, CHEMTREC helps minimize environmental impacts, protect people, and preserve the assets and reputations of its customers.

Operating globally, CHEMTREC has major offices and strategic partners in major regions, on-the-ground knowledge of local regulations, understanding of local nuances, and appreciation of cultural sensitivities. CHEMTREC offers a suite of services along with L1 emergency response, including safety data sheet solutions, hazardous materials training, consulting services, battery compliance, and incident reporting. CHEMTREC is proud to contribute to the practice of safe handling and transportation of hazardous materials throughout the supply chain.

## **SERVICES PROVIDED**

TotalSDS is a SaaS-based compliance company dedicated to making the workplace and the environment safer by simplifying compliance and chemical information documentation.

Using our TotalSDS software, companies can author, translate, and manage SDS at a fraction of the time and cost of other systems. With over a decade of experience helping manufacturers, distributors and end users stay compliant with exceptional regulatory consulting and software applications, we are fundamentally changing the way companies handle chemical and product safety information. TotalSDS eases the burden of safety data sheet regulatory compliance so our subscribers can focus on their core business.

OSHA's Alliance program enables OSHA to develop and maintain meaningful, collaborative relationships with public and private organizations to advance workplace safety and health. Alliance participants are committed to working with the agency to:

- Increase awareness about workplace safety and health rights, responsibilities, and hazards/challenges;
- Advance crucial conversations among Agency/participant technical and policy experts about these hazards/challenges; and
- Develop and promote design solutions and best practices;
- To reduce worker injuries and illnesses and foster a culture of safety in workplaces across the U.S.
