slarson@drumlabels.com

www.brandywinelabelprinting.com

Are you getting the most out of your present hazard communication labeling process? We offer a FREE labeling evaluation to identify specific steps you can take to improve your hazard communication effectiveness and efficiency while lowering labeling costs. You can depend on Brandywine Label Printing for reliable, cost-effective and value-driven chemical label printing solutions that promote safety and help you maintain compliance with all applicable regulations and standards. To learn more, visit the Brandywine Label Printing Booth at the SCHC Annual Meeting and let's talk!

Chemical Hazards Communication Society (CHCS)

Gill Pagliuca, Chairman CHCS

49 Station Road
Polegate BN26 6EA
United Kingdom

033 3210 2427

enquiries@chcs.org.uk

www.chcs.org.uk

CHCS aims to promote greater awareness of chemical hazards and hazard identification, and to improve hazard communication within supply chains, such as classification for supply and transport, clear labelling and accurate and understandable Safety Data Sheets. CHCS offers Modular Training Courses on the writing of Safety Data Sheets (SDSs), and related issues such as classification, labelling and other documentation. Members of SCHC can book onto CHCS training courses and join our webinars.

OSHA's Alliance program enables OSHA to develop and maintain meaningful, collaborative relationships with public and private organizations to advance workplace safety and health. Alliance participants are committed to working with the agency to:

- Increase awareness about workplace safety and health rights, responsibilities, and hazards/challenges;
- Advance crucial conversations among Agency/participant technical and policy experts about these hazards/challenges; and
- Develop and promote design solutions and best practices;
- To reduce worker injuries and illnesses and foster a culture of safety in workplaces across the U.S.
