***** PLATINUM SPONSOR *****

CHEMDOX® provides an outstanding software solution for the chemical industry:

- Safety data sheet authoring for more than 50 countries
- Automatic classification calculators and outstanding legal content
- Labeling, PCN, ERP-Interfacing etc.

What do our clients like about us?

The CHEMDOX® software has been developed by experts for experts. Still, it's easy to use and super-efficient. Highly automatable and yet very flexible. It's open and easy to integrate. All this, based on state-of-the-art technology and outstanding customer support.

Chemical Hazards Communication Society (CHCS)

Louise Witter, Chairman CHCS
49 Station Road
Polegate BN26 6EA
United Kingdom

enquiries@chcs.org.uk

www.chcs.org.uk

CHCS aims to promote greater awareness of chemical hazards and hazard identification, and to improve hazard communication within supply chains, such as classification for supply and transport, clear labelling and accurate and understandable Safety Data Sheets. CHCS offers Modular Training Courses on the writing of Safety Data Sheets (SDSs), and related issues such as classification, labelling and other documentation. Members of SCHC can book onto CHCS training courses and join our webinars.

ChemGes is dedicated to automating and simplifying global chemical compliance. Our software streamlines the creation of Safety Data Sheets (SDS) in 39 languages, providing rapid translations and reducing the burden on industry specialists. With support for all implementations of the GHS and other country-specific legislation, ChemGes ensures effortless compliance.

Our flexible and customizable interface, available in English, German, Italian, and French, caters to the needs of small, medium, and multinational companies, offering standardized international data management. The extensive database contains thousands of raw materials and provides direct web searches for additional substances, making it an invaluable compliance resource. Our automatic classification algorithms ensure accurate implementation of global standards for the calculation of mixture data.

Established in 1989, ChemGes serves over 1,800 clients worldwide, offering our signature support service and regular updates to keep you ahead of legal changes. Our experienced software engineers can swiftly implement user-specific adjustments, ensuring the software meets your unique requirements.

Visit our booth or contact us for a free presentation to discover how ChemGes can streamline your compliance process, save time, and reduce costs.
