**Advanced Topics in EHS: Occupational Exposure Limits**

Monday, September 24, 2018  
Crystal Gateway Marriott Hotel – Arlington, Virginia

**Course Description**

The *Advanced Topics in EHS* series of courses is designed to expand on topics that are introduced in the basic SCHC courses. The topic of occupational exposure limits is introduced in the SCHC course *Industrial Hygiene and Safety for Hazard Communication*.

The goal of this course is to provide a detailed understanding of occupational exposure limits. Emphasis is placed on the science and various methodologies used for establishing occupational exposure limits as well as the appropriate uses of occupational exposure limits in hazard communication. The goal of this course is to provide participants with an understanding of the technical aspects of occupational exposure limits as well as an appreciation of their global role in hazard communication.

This is an advanced course. While there are no formal prerequisites for this course, it is recommended that participants have taken the SCHC course *Toxicology for Hazard Communication* or be comfortable with the basic principles of toxicology.

**Intended Audience**

Hazard communication professionals looking to expand their understanding of the development and application of occupation exposure limits and the their role in Hazard Communication.

**Course Director - Robert Skoglund, Ph.D., DABT, CIH**

**Course Instructor**

**Catherine F. Jacobson, Ph.D., DABT**

Dr. Jacobson is a Senior Toxicology Specialist at the 3M Company. Her primary responsibilities include assessing the human health hazards and risks of raw materials, chemical intermediates, and products for several 3M business units. In addition, she oversees the authoring of hazard communication documents and develops comprehensive health hazard profiles for chemical substances important to 3M.

**Course Instructor**

**Robert Roy, Ph.D., DABT**

Dr. Roy is a Lead Toxicology Specialist at 3M in St. Paul, Minnesota. His primary responsibilities include assessing the human health hazards and safety of products and other materials for several 3M business units. In addition, he leads the development of the 3M Occupational Exposure Guidelines and has been actively involved in California Proposition 65 assessments, chemical health hazard determination, and the human risk/safety assessment of chemicals/intermediates and finished products.

**Course Fee:**            \$275.00 / Members            \$365.00 / Non-members
