Overview of US Environment, Health, and Safety Regulations

Monday, September 23, 2019
Crystal Gateway Marriott Hotel – Arlington, Virginia

Course Description

This course is intended for those individuals new to the practice of hazard communication and is an introduction to, and an overview of the relevant US Environment, Health and Safety (EHS) regulations. Participants will be provided with a general understanding of major US federal and state regulations affecting the practice of hazard communication. Elements covered will include the history, purpose, and overall scope of the regulations, but the emphasis will be on the provisions that impact the authoring of Safety Data Sheets (SDS) and hazard labels. This is not a “how to” for the authoring of SDS and hazard labels. Rather, the goal of this course is to provide participants with the fundamental understanding of the regulatory basis for SDS and hazard labels. This course provides the foundation upon which the technical skills necessary to be an author of hazard communication documents can be built.

This is a basic, introductory course and there are no prerequisites.

Intended Audience

Individuals new to the hazard communication profession.

Course Fee: \$450.00 members // \$540.00 non-members

Course Director/Instructor

Robert Skoglund, Ph.D., DABT, CIH

Dr. Skoglund is the Director of Product Safety and Regulatory Affairs at Covestro LLC. His responsibilities include product safety, compliance, stewardship, and sustainability for North America - including hazard communication.

Course Instructor

Catherine F. Jacobson, Ph.D., DABT

Dr. Jacobson is a Senior Toxicology Specialist at the 3M Company. Her primary responsibilities include assessing the human health hazards and risks of raw materials, chemical intermediates, and products for several 3M business units. In addition, she oversees the authoring of hazard communication documents and develops comprehensive health hazard profiles for chemical substances important to 3M.
