

New & Emerging State Right-to-Know Regulations

**Steve Bennett, Executive Vice President of
Scientific & Regulatory Affairs
Household & Commercial Products Association**

Presenter biography

Steve leads the scientific and regulatory department, developing science policies, and providing scientific and regulatory expertise on issues pertaining to HCPA's seven product divisions. He is currently leading the association's TSCA implementation efforts and works on a myriad of technical aspects pertaining to green chemistry, ingredient disclosure, air quality, sustainability, pesticides, California's Proposition 65, and poison prevention.

Presentation abstract

Overview of recent developments in right-to-know regulations including California's Proposition 65 and ingredient disclosure efforts underway in California and New York.
