\$ 75 per participant - Members

\$ 125 per participant - Nonmembers

Thursday, January 17, 2019 – 11 a.m. – 12 p.m. ET

Objectives:

- The webinar aims to provide a summary of the impacts of the UK withdrawal from the EU. Worked examples will be used in order to outline regulatory and business solutions to issues that will be faced pre- and post-withdrawal.

Abstract:

This webinar will highlight some of the key impacts of the planned withdrawal of the United Kingdom from the European union on chemical compliance in Europe. Topics covered will include Biocides, Authorizations, Classification and Labeling with an in-depth focus on the impacts of the UK withdrawal on REACH registrations.

Agenda:

- Political Backdrop
- Compliance after Brexit
 - Biocides
 - Authorisation
 - Classification & Labelling
- Maintaining REACH Compliance (Registrations)
- Getting UK-REACH compliant
- Tips & Tools
- Q&A

PRESENTERS

Kevin Hoban

Kevin is Chief Operations Officer for H2 Compliance with responsibility for business development, commercial activity and strategic advice to clients. Kevin holds MSc in Industrial Chemistry and a Diploma in Environmental Engineering. Worked for 5 years in the metal processing industry and 10 years in Hewlett Packard holding various Chemical, EHS and Logistics roles, prior to jointly establishing H2 Compliance in 2006.

Dr. Darren Healy

Darren has been with H2 Compliance for almost 4 years and manages the REACH programs for many of our clients as well as leading the Brexit Preparedness team. His clients include companies from a broad range of industries such as pharma, medical device, mining and consumer products. Some of which are based in, selling to or supplied from the UK. Darren has unique insights into how companies can maintain chemical compliance in their supply chains after the UK withdrawal date.
